

RetroFit Machine Intelligence Report

Self-Learning Machine Behavioral Identity & Edge AI Summary

1. Executive Status & Identity

Machine ID: RETROFIT_DEMO_01

Operating State: State 1

System Status: NORMAL_OPERATION

Behavioral Similarity: 100.0%

Behavioral Drift: 0.0%

Confidence Metric: 99.0%

2. Modality Contribution Breakdown

- Vibration: 56.7% contribution
- Audio: 23.3% contribution
- Temperature: 6.7% contribution
- Magnetic: 13.3% contribution

3. Primary Feature Deviations

Top Deviating Features: audio_band_energy_1_50_500hz, acc_mag_spectral_centroid, audio_spectral_bandwidth

4. Machine Personality & Behavior Profile

- Vibration: highly stable
- Acoustic: low broadband noise
- Thermal: gradually increasing under load
- Operating rhythm: highly consistent

5. Engineering Recommendations

NORMAL: Machine is operating within learned healthy identity baseline.
